

TAKE A DIFFERENT ROAD

THE NEW LANCER  
**EVOLUTION X**

## WHEN THEORIES BECOME REALITY

The new Mitsubishi Lancer Evolution X is more sophisticated, involving and technologically-advanced than ever before. It incorporates every bit of knowledge Mitsubishi Motors has gained through the creation of the previous nine generations of Lancer Evolution and from decades of competing

successfully at the highest levels of international rallying. Most importantly, Lancer Evolution X connects and interacts completely with the driver in all conditions, providing the very highest levels of driving pleasure to match its mighty performance.

## FORM FOLLOWS FUNCTION

Based on a completely new platform, the Lancer Evolution X looks fantastic from every angle. And each part is there for a reason: to provide the most thrilling drive ever offered. The purposeful stance is produced by 30mm wider tracks and a wheelbase that is 25mm longer compared to the previous model, making the new Lancer Evolution X more composed than ever before. The use of lightweight materials gives the car an agility which will exceed every expectation.

### BREATHE DEEPLY

The impressive vents and large 'jet fighter' style front grille of the Lancer Evolution X provide all the air and cooling the engine needs to produce amazing power. Additional front air ducts ensure a cooling airflow over the two-piece front brake discs.

### STICKS TO THE ROAD

As well as looking breathtaking, the advanced aerodynamics of the Lancer Evolution X keep you glued firmly to the road, raising cornering ability and high speed stability to new heights. A carbon fibre front lip spoiler and rear vortex generator hint at the FQ-360 models' superior performance potential.

## COMFORT THAT PERFORMS AT EVERY SPEED

The contemporary interior of the new Lancer Evolution X provides maximum support and reassurance with the perfect blend of style, functionality and comfort. The driver-focused dashboard provides ideal ergonomics with sporting appearance, allowing you to get on with enjoying the superb drive on offer.

The front Recaro seats – trimmed with leather and techno suede in FQ-360 models – have been tuned specifically for Lancer Evolution X and hold occupants securely, yet in complete comfort. High-contrast instruments keep you fully informed at all times.

The Lancer Evolution X is packed with equipment to entertain and keep you up-to-date on any journey. GSR model specification includes a Rockford Fosgate premium audio system specifically developed for the Lancer Evolution X featuring a 650-watt 8-channel power amplifier with nine

speakers. Also standard for GSR models, the Mitsubishi Multi Communication System with HDD navigation and music server uses a super-quick 30GB hard disk drive. And all models offer Bluetooth functionality allowing you to make calls while keeping your hands where they should be: on the steering wheel.

## THE POWER WITHIN

At the heart of the Lancer Evolution X is a new all-aluminium engine that in FQ-300 models pumps out an impressive 295PS and 407Nm of torque; this increases to 329PS and 437Nm for FQ-330 versions and a mighty 359PS and 492Nm in the range-topping FQ-360 models. Yet with Super All Wheel Control (S-AWC) working in complete harmony with the precise steering and sophisticated suspension system featuring Bilstein shock absorbers and Eibach coil springs, you can put every bit of the available muscle to the tarmac with absolute control, total confidence and maximum enjoyment.

### STRONGER YET LIGHTER MIVEC TURBO

The engine features direct valve activation and variable timing for both intake and exhaust valves to improve performance at all speeds. Despite its high output, the new die-cast aluminium engine block is 12kg lighter and positioned 10mm lower than in the Lancer Evolution IX, resulting in a lower centre of gravity.

### TITANIUM TURBOCHARGER

The turbocharger uses titanium for the turbine wheel and aluminium for the compressor wheel, which is 18% more efficient than before.

## CHANGE UP A GEAR

### TWIN-CLUTCH SPORT SHIFT TRANSMISSION (TC-SST)

The Lancer Evolution X FQ-300 GSR SST boasts a light and compact six-speed Twin-Clutch Sport Shift Transmission (TC-SST) which uses two clutches, one to engage the gear in use, the other to pre-select the next gear required, resulting in lightning-quick changes. The magnesium shift paddles behind the steering wheel allow you to make rapid gear changes without taking hands off the wheel, giving you full control of the car in maximum comfort. TC-SST also offers three driving modes, including the Super Sport mode that keeps engine speed above 4500rpm for maximum responsiveness and control in sporting environments such as race tracks, and can operate in automatic mode when the gearshift is moved to 'D'.

### FIVE-SPEED MANUAL

The five-speed manual gearbox is perfect for the driver who enjoys driving in its purest form. Now stronger, the gearbox uses multi-synchromesh on all gears for smoother changes.

## TAKE CONTROL OF EVERY WHEEL

The Super All Wheel Control (S-AWC) system of the new Lancer Evolution X incorporates and controls four advanced electronic and mechanical devices that work together to adapt the way the car responds to the driver and conditions. S-AWC works seamlessly to keep the power under control and can be tailored to snow, gravel or tarmac surfaces at the flick of a switch. It is no exaggeration to say that S-AWC is unrivalled by any other driver assistance system in existence.

### WORKING TOGETHER IN PERFECT HARMONY

- ACD** The Active Centre Differential optimizes the torque differential between front and rear wheels to enhance steering response, traction and stability.
- AYC** Active Yaw Control optimizes the torque differential between the rear wheels to enhance cornering performance and traction.
- ASC** Active Stability Control immediately detects wheel slip and, by strategically applying each individual brake according to need, prevents a loss of control developing.
- ABS** The Lancer Evolution X's Anti-lock Braking System works to prevent wheels from locking up under emergency braking or when braking in extreme situations such as on slippery surfaces, helping the driver to retain directional control of the car.

## ACD AND AYC: EXTRA-SENSORY PERCEPTION

The ACD/AYC system uses many sensors to closely monitor the behaviour of the Lancer Evolution X and provides control quickly and effectively, without disrupting driver involvement. Sensors measure individual wheel speed, longitudinal and lateral acceleration, steering angle, yaw rate, brake fluid pressure, engine torque and engine speed, all working to ensure that you remain in control, even during on-the-limit driving.

Now even more advanced, the AYC system incorporates a brake force control function that makes it even more effective at controlling understeer, helping you to maintain your intended line.

## OUR FINEST TUNED CAR EVER

The new, super-stiff body of the Lancer Evolution X provides the perfect platform for the suspension to do its job. Aluminium front wings, bonnet and roof reduce weight and lower the centre of gravity, taking acceleration, handling and body control to new levels.

To produce incredible handling, the Lancer Evolution X has wider tracks and utilizes stiff struts at the front with a sophisticated new low-mounted multi-link arrangement at the rear. The suspension components are designed to greatly enhance road contact, allowing the Bilstein shock absorbers and Eibach coil springs to control wheel movement with absolute precision.

The huge 350mm Brembo brakes feature new 2-piece brake discs to provide awesome stopping power. The Sports ABS system, which incorporates Electronic Brakeforce Distribution (EBD), is fully integrated into the S-AWC system, producing even more effective braking, also while cornering.

## ANATOMY OF THE LEGEND

This is also the safest Lancer Evolution ever. In addition to the active safety features that are designed to keep you out of trouble, Lancer Evolution X is equipped as standard with front, side and full-length curtain airbags to protect all occupants in the event of a collision. The driver's side knee airbag significantly reduces the risk of lower limb injury and the front seatbelt pretensioners and force-limiters provide greater restraint and yet transfer fewer impact forces to occupants.

The RISE (Reinforced Integrated Safety Evolution) body of Lancer Evolution X uses bracing, cabin reinforcements and ultra high-tensile steel to increase strength and to ensure that energy is directed away from occupants should a collision occur.

Together with excellent all-round visibility, Lancer Evolution X is equipped with high-intensity bi-xenon headlamps and new Adaptive Front lighting System (AFS) with cornering lamps that illuminate the inside of corners, highlighting potential hazards and making driving at night much safer. The system is activated at speeds up to 62mph dependant upon steering angle.

## AHEAD OF THE PACK

Performance driving is about far more than raw speed. The new Lancer Evolution X provides this in abundance, yet it offers far more. For 16 years, Mitsubishi Motors has been perfecting the Lancer Evolution formula, an unequalled combination of speed, road-holding, practicality and driver involvement.

A truly great performance car needs to connect and interact completely with the driver, something the new Lancer Evolution X does effortlessly in all conditions, thanks to advanced technology that guarantees a driving experience you will never forget.

### PUSHING THE LIMITS

Mitsubishi Motors possesses an extremely impressive record in the punishing motorsport arena of world rallying. To triumph in these events, a car must be tough, fast, safe and extremely reliable; qualities that have brought the Lancer Evolution its success both in rallies and on the street.

## THE COMPLETE PACKAGE

The new Lancer Evolution X will not only appeal to your heart, but also to your head. Packed with state of the art technology, it is more refined and better equipped than ever before. Yet

one thing hasn't changed: Lancer Evolution X still delivers the legendary reliability and robustness you expect, as well as the huge levels of performance you demand.

If you would like to learn more about the new Lancer Evolution X, please visit your local Ralliart Authorised Mitsubishi Motors dealer and ask for a copy of "The Evolution Theory", an 88-page combined book and brochure.

## STANDARD KEY FEATURES

### ALL MODELS

- Super All Wheel Control
- 5-speed manual transmission (except GSR SST FQ-300)
- Brembo braking system with Sports ABS + EBD
- 18" Enkei alloy wheels
- HID (Xenon) headlamps with Adaptive Front lighting System (AFS)
- Air conditioning, climate control
- Electric windows and door mirrors
- Auto lights-on and wiper rain sensor
- Recaro full bucket front seats
- Leather-wrapped steering wheel with audio and Bluetooth controls
- Dual front/side/curtain and driver's knee SRS airbags
- Keyless entry, alarm and Tracker security systems
- Fabric seat trim, dark grey

**GS:** CD/tuner with MP3 compatibility

**GSR:** HDD navigation with radio and music server (MMCS)  
Rockford Fosgate premium audio

### GSR SST FQ-300

STANDARD KEY FEATURES PLUS:

- 6-speed Twin Clutch Sport Shift Transmission (TC-SST)
- SST steering wheel paddle shift
- SST mode selector switch

### GS/GSR FQ-330

STANDARD KEY FEATURES PLUS:

- Power upgrade (329PS)

### GS/GSR FQ-360

STANDARD KEY FEATURES PLUS:

- Power upgrade (359PS)
- Carbon fibre front lip spoiler
- Carbon fibre vortex generator, rear roof
- Carbon fibre rear bumper exhaust shields
- Leather/Techno-suede seat trim
- Carbon fibre gearshift knob, handbrake lever and pedal kit
- Premium floor mat set

## OUTSTANDING AFTER SALES FOR CAREFREE MOTORING

### MITSUBISHI SERVICE PLAN

Buy a Mitsubishi Service Plan and your initial 1,000-mile service and first three scheduled services (3 years/30,000 miles – whichever occurs first) will not cost you a further penny. This will give you peace of mind, safe in the knowledge that your vehicle will be maintained using only genuine parts and skilled Mitsubishi trained technicians.

The Mitsubishi Service Plan is transferable to a new owner and will enhance the resale value of your vehicle. Please ask your dealer for details.

### MITSUBISHI MOTORS GENUINE PARTS

Even the smallest technical faults can lead to accidents. Therefore, all Mitsubishi Motors Genuine Parts have been developed and tested to stringent quality standards. We recommend using Mitsubishi Motors Genuine Parts in order to maintain the safety and integrity of your vehicle and that of your passengers. Mitsubishi Motors Genuine Parts are available at all Mitsubishi Authorized Service Points.

### COMPREHENSIVE WARRANTY

All new Mitsubishi Lancer Evolution X vehicles come standard with a comprehensive 3-year unlimited mileage warranty as standard. The anti-corrosion perforation warranty covers rusting through for the first 12 years. The reliability statistics for Mitsubishi vehicles are impressive, but in the unlikely event that you do need help, we offer MAP.

### MAP – FREE BREAKDOWN ASSISTANCE

Throughout the 3-year warranty period your vehicle is covered by Mitsubishi Motors Assistance Package (MAP) roadside assistance. This cover extends to more than 30 countries throughout Europe so your

mobility is guaranteed. Should you ever need assistance in the event of breakdown, accident, theft or vandalism – wherever you are, 24 hours a day, 7 days a week – just call the number on your card.

If the problem cannot be fixed on the spot, your car will be taken to the nearest Mitsubishi Authorised Service Point and you'll be offered services such as a hotel, continuation of journey or a replacement car. And if you continue to have your vehicle serviced at a Mitsubishi Authorised Service Point after the warranty period, your mobility will be guaranteed for an additional year or up to the next service (whichever comes first), for a nominal fee. This applies to vehicles up to 10 years old.

### PACE WARD INSURANCE

The Ralliart Official Insurance Scheme; for insurance policies designed for Lancer Evolution owners and tailored to meet your needs contact Pace Ward on 01782 286311, e-mail [EvoInsure@pw-f.co.uk](mailto:EvoInsure@pw-f.co.uk) or visit [www.pw-f.co.uk](http://www.pw-f.co.uk)

## MITSUBISHI MOTORS RECYCLING

We all have a duty to protect the environment. After a long working life we will take back any Mitsubishi Motors vehicle originally sold by The Colt Car Company Ltd. and recycle it in an environmentally friendly manner in accordance with the EU Directive on End-of-Life Vehicles and any applicable national statutory provisions.

All Mitsubishi Motors vehicles sold by The Colt Car Company Ltd., irrespective of date of sale, will be taken back free of charge from the last owner at one of the designated take-back points, provided the vehicle contains all major components and is free of waste.

For further information please visit [www.cartakeback.com](http://www.cartakeback.com), email [info@cartakeback.com](mailto:info@cartakeback.com) or call the Cartakeback info-line on 0845 257 32 33.

Specifications and warranty conditions may vary for overseas markets. For personal export, NATO or diplomatic sales, please contact the appropriate Export Department as follows:

U.K.: The Diplomatic and Export Manager at The Colt Car Company Ltd., Watermoor, Cirencester, Glos. GL7 1LF.

Tel: 08452 414777.

Germany: The Colt Car Company Ltd., P.O. Box 1244, 41374 Brüggen, Germany.

Tel: +49 2163 7036.

The specification of the vehicles illustrated in this publication may not be applicable to the UK market, furthermore some vehicle illustrations may include accessory items which are not part of standard UK specification. However, every effort has been made to ensure that the written information was accurate, up-to-date and consistent with UK specification at the time of going to press. The right is reserved to change specification, features and prices without prior notice. To avoid any misunderstandings, your Mitsubishi Motors dealer will advise of any alterations made since the date of issue of this brochure. No part of this publication may be reproduced in any form or by any means, without the prior written permission of The Colt Car Company Limited.
